

WPS 61

Technical datasheet

ABOUT

The WPS61 buffer tank is intended for use with air source heat pumps. The buffer performs the dual functions of providing energy for an efficient defrost as well as smoothing the on/off cycles of the heat pump compressor.

The WPS61 is finished in clean white. It is wall mounted to preserve floor space and will fit beneath the HMD unit of the LWD50/70ASX heat pumps.

With a vent valve fitted to the top of the tank the WSP61 is a very effective air separator.

SIZE

WPS 61

Height 855mm
Dia. 450mm

SPECIFICATION

Model No.	WPS61
Max Heat Pump Capacity	10kW
Connections	2 x 1 1/2" + 1 x 1/2"
Weight	42kg dry 82kg wet
Heater	No
Material Tank	Carbon Steel
Material Case	Painted Steel Sheet
Insulation	Foam PU, 50mm
Mounting	Wall Bracket
